7.6 Any other relevant information the institution wishes to add. (for example SWOT Analysis)

Strengths

- Faculty with excellent blend of Industry and Academics
- An excellent strategy for the wholesome development of the students with rigorous academic modules; excellent mechanism to uncork the human potential, precise application of managerial concepts in every spectrum and a well laid out programme to inculcate value system as a habit in the students.
- Opportunity for upliftment of girls from economically disadvantaged rural background who form the major part of student community.
- Fostering secular culture in a minority institution by welcoming students of different religious denominations.
- Strong interpersonal relationship among teachers and very effective academic guidance from management.
- Majority of PG departments are research centres and regularly publishing research papers in reputed journals.

Weakness

- At present, some of the faculties do not possess PhD.
- Lack of new generation programmes in the aided sector to open up skill development/job oriented facilities for financially weak students.
- All departments are not upgraded with PG and PhD programmes.
- Students with poor academic background – not showing interest in higher studies. Early marriage of girl students creates drop outs.

Opportunities

- Increasing demand for professionals: High degree of preference for qualified professionals is shown by different industrial sectors.
- Ten UG Programmes, five PG Programmes and three research departments in aided sector and six UG Programmes and two PG Programmes in self financing sector provide higher education to the students from the rural background.
- Programmes/Courses which improve student employability/ life skills/creativity /scientific temper/environment education to tap job prospects of Smart City, Kochi.
- Proximity of CUSAT & NPOL are added advantages for greater exposure and interaction of students with scientific and technological experts in their respective fields for improving academic prospects and for better awareness on new job opportunities.
- Students are placed in Banking, IT, Advertising Sectors, Coffee board, Rubber Board and other agriculture sectors. Self employed in garden designing, nursery management, organic farm and vermin compost are other opportunities

ANALYSIS OF THE FEEDBACK

- **Students:** Interaction of the faculty and the students in and out the class rooms is an effective measure through which the college obtains feedback from the students. The college has an Internal Quality Assurance Cell (IQAC) that collects periodically the written feedback of students to evaluate the curriculum and also the teachers.
- **Alumni:** The department alumni meetings, formal and informal, provide a better understanding of the effectiveness and applicability of the curriculum in the practical sense. The feedbacks obtained from the alumni are incentives for modifications or inclusions suggested by the faculty in the workshops and meetings conducted by the University Curriculum Changes and enrichment.
- **Parents:** The College has a Parent Teacher Association (PTA) functioning well. The parents are invited to the college and the concerned departments in order to interact with the teachers. Written feedback is obtained in the interactive sessions as well as during the Open House.
- **Employers:** The employers give their feedback with regard to the curriculum and the industry needs during the meetings and interactions with the Principal and the Placement Cell of the college.
- **Academic Peers:** The departments have started collecting feedback from the academic peers. The members of the faculty also get feedbacks from their interactions with academic peers of other colleges during centralized evaluation, seminars and faculty development programmes. Through such interactions, various suggestions and modifications are discussed and conveyed to the Board.
- **Community:** The general acceptance of the course programmes by the students and their parents is a sign of acceptance on the part of the community also. Besides, there are community linked programmes initiated by the college, during which the college authorities meet the members of the local community and interact with them and obtain sufficient feedback of the academic activities going inside the campus.

The suggestions made on the above feedbacks are conveyed to the University through teachers who are members of the board of studies or those attending seminars/workshops on Curriculum development.
